SERVICES WE OFFER

EXPERT VALUATIONS

Senior Valuer Michael Dowse has over 45 years experience and in his professional life collaborates with Private Client departments of solicitors throughout Yorkshire, Derbyshire, Lincolnshire and further afield. He is passionate about the personal approach to his work.

A typical probate instruction can involve meeting with solicitors, paralegals, executors, beneficiaries and family members.

Negotiations with family can be as local as the next street or as far away as Australia or New Zealand. Safe storage and distribution of assets, family division assistance and sensible sales advice are paramount in the efficient delivery of every probate matter.

Michael's valuations are compliant with section 160 of the 1984 Inheritance Act and are always undertaken with the care and compassion deserving of the situation, even when the matter is contentious.
